MacOS High Sierra 10 13 1 Build 17B48 dmg - Google Drive Jun 15, 2016 When it's done click on install and let the process starts automatically, after completing with your Mac will rebooting into Sierra.. One of those reasons which might have stopped from the upgrade to macOS Mojave or macOS Catalina is its compatibility.. While there are some ways to skip that and install macOS Mojave or install macOS Catalina on your unsupported Mac but that's not always the only option to take.
