As in Chrome, in Baidu Browser you have access to the grid of the most visited websites when you open a new blank tab (New Tab).. The software includes a sidebar, which gives you quick access to bookmarks and downloads, a zoom function

for enlarging or shrinking the pages, and a Facebook widget, which allows you to get a real-time look at your social stream.. Designed for you The interface is almost identical to that of Chrome, but with a more youthful design.. Another useful feature allows you to mute the volume in all tabs, a useful function when you have many tabs open and don't know where the annoying sound is coming from.. The mouse gesture is surprisingly responsive and improves the usability of the browser.. If electric blue (the default color) isn't to your taste, don't worry, Baidu Browser includes several other skins, which you can choose via the button next to the tab bar.. Baidu Browser allows you to use gestures with the mouse to carry out specific actions, such as changing, closing or opening a new tab, or moving forward and backward. 773a7aa168 [Express For Mac](#)
